

I've worked closely with Steve on various projects over the better part of the last 12 years, and I've found him to be both aesthetic and creative in bringing those projects to a positive outcome. He has never hesitated to engage the newest technologies available, nor network to bring more individual ideas to bear towards solving a problem. He's unique in his natural ability to effortlessly engage a wide range of age and socio-economic groups sincerely. It's been my experience that it's rare to find someone who is both logical, and creative, and who possesses a solid work ethic - I would be please to recommend Steve for any position, sacred or secular.
